Produce of the Week

What veggie was introduced to the U.S. by Irish immigrants?

POTATOES!

- Choose potatoes that are firm, smooth, and the color they are supposed to be.
- Softness, a green tinge, or wrinkly skin may indicate a potato that is low quality.
- Store potatoes in a cool, dry place for 3-5 weeks.
- Most of the nutrients are contained right below the skin, so avoid peeling when possible; scrub the skin to remove dirt.
