Data Source: Connecticut immunization registry CT DPH as of 9/21/2022; ^Vaccination data for Mansfield includes 5/6/2022 data from UCONN (previously reported at <https://covidashboard.uconn.edu>). +Downward changes from prior weeks are likely due to de-duplication or re-assignment of cases to different towns associated with UConn student residency changes. **State vaccination numbers are not broken down into the same age groups as the town level data and cannot be reported here.
NOTE: census estimates for 65 and older is likely low, resulting in 100% rates based on actual number of vaccines provided to this age group.

EHHD Positive COVID-19 Cases by Week March 21, 2020 - September 17, 2022

NOTE: All counts by town are cumulative and include confirmed cases and antigen-positive cases; counts can change from previous weeks due to the state reassigning a case to a different town once further information is gathered on the case, or due to lab reporting delays.

EHHD Confirmed Weekly Case Totals Dec 18, 2021 - September 17, 2022
