Note: Only lab confirmed cases are reported in this table. Counts can change from previous weeks due to the state reassigning a case to a different town once further information is gathered on the case, or due to lab reporting delays.

++ Scotland case count likely lower than actual positive cases due to residents using Baltic, North Windham and Hampton as a mailing address.

\*Mansfield case count (weekly and cumulative) includes UConn students

### CONNECTICUT TOTALS (April 27, 2023)

### PERCENT EHHD RESIDENTS WHO RECEIVED COVID-19 BIVALENT VACCINE<sup>+</sup>

Est. pop.	AGE GROUP						Total pop.
	0-4 years	5-14 years	15-24 years	25-44 years	45-64 years	65+ years

CT 3,631,470	2	7	12	15	26	53	23 <sup>++</sup>

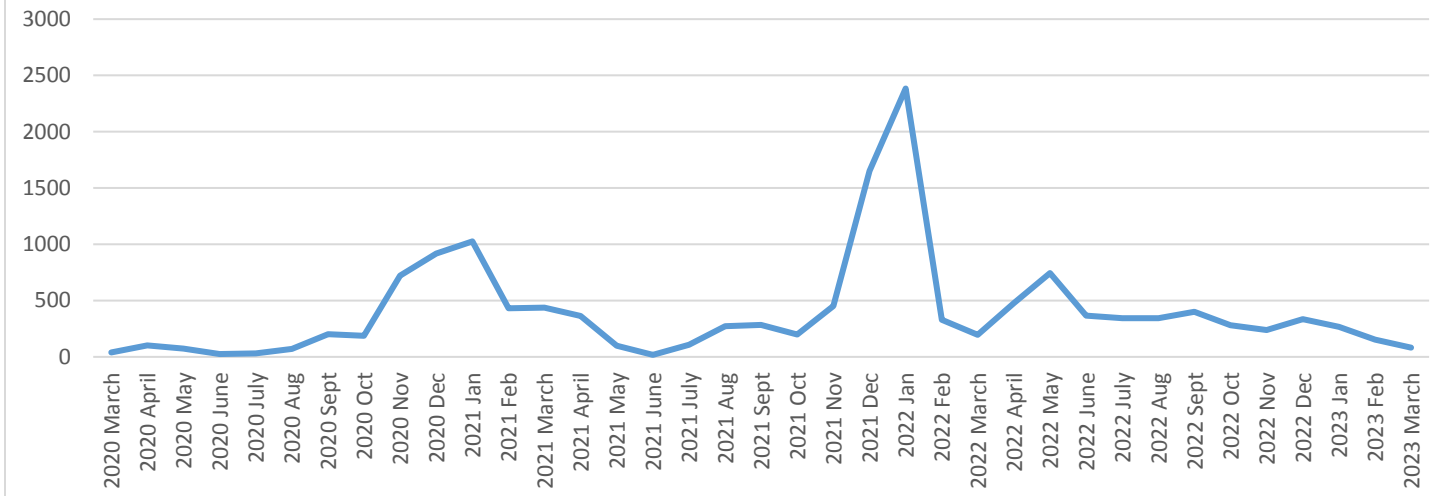

Data Source: Connecticut immunization registry CT DPH as of 4/22/2023.

+Downward changes from prior weeks are likely due to de-duplication or re-assignment of cases to different towns associated with UConn student residency changes.

++ Downward change this week likely due to the addition to the full population of zero to 4 year olds for the first time.

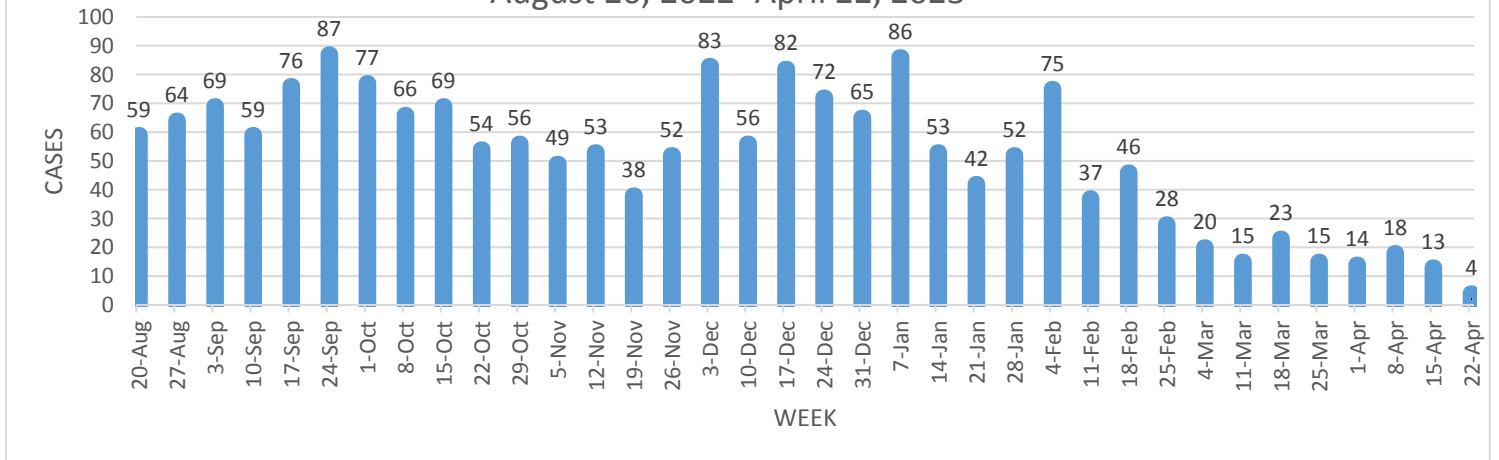

\*Note: this age group includes the UConn population but does not include their vaccine status due to vaccine records being linked to a 'home town' and not the Town of Mansfield.
