Data Source: Connecticut immunization registry CT DPH as of 2/23/2022; [^]Vaccination data for Mansfield includes current 2/23/2022 data from UCONN

(<https://covidashboard.uconn.edu/>). +Downward changes are likely due to de-duplication & re-assignment of cases to different towns associated with UConn student residency changes. **At this time the state vaccination numbers are not broken down into the same age groups as the town level data and cannot be reported here.

NOTE: census estimates for 65 and older is likely low, resulting in 100% rates based on actual number of vaccines provided to this age group.
