CONNECTICUT TOTALS (June 17, 2021)

Number of cumulative cases	Change from last week	Change from two weeks	Current hospitalizations	Two week change in hospitalizations	Deaths
348,595	276	847	37	-52	8,266

Data Source: CTEDSS and CT DPH; cumulative town counts as of 06/17/2021; reporting period for two week town level case counts is 5/30/2021 through 6/12/2021

*This is the current (net) number of hospitalizations. It is not a cumulative count. ++ Likely to be lower than actual resident positive cases due to residents using Baltic, North Windham and Hampton as mailing address. NOTE: All counts by town are cumulative and include confirmed cases and antigen-positive cases; counts can change from previous weeks due to the state reassigning a case to a different town once further information is gathered on the case, or due to lab reporting delays.

Recent EHHD News:

- The EHHD is hosting a series of pop-up and walk-up vaccination clinics. No appointments necessary. Go to our website at www.ehhd.org for times and locations.
- The weekly case count on the below chart indicates downward trend in the past 10 weeks. Follow this link for more town level data: <https://portal.ct.gov/Coronavirus/COVID-19-Data-Tracker>

NOTE: For the top two charts, counts can change from week to week due to the state reassigning a case to a different town once further information is gathered on the case or lab reporting delays. The bottom chart may not equal 100% due to rounding.
