Data Source: Connecticut immunization registry CT DPH as of 8/18/2021. <sup>^</sup>Mansfield total % fully vaccinated likely low due to significant UCONN student population counted in town census that uses hometown for vaccination data reporting; population based on 2019 census. ++ See Scotland note above. \*\*At this time the state vaccination numbers are not broken down into the same age groups as the town level data and cannot be reported here. NOTE: census estimates for 65 and older is likely low, resulting in 100% rates based on actual number of vaccines provided to this age group.
